PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with hands-on experience in modern web technologies including PERN stack, Next.js, and cloud databases. Proven ability to design and implement scalable applications, lead technical initiatives, and deliver high-quality solutions. Strong expertise in frontend and backend development with a focus on user experience and code quality. Seeking to leverage technical skills and leadership experience in a dynamic development environment.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer Intern / Volunteer | Arterion PH

January 2026 - Present | Manila, Philippines

- Architected and developed internal task management system (Orion project) using PERN stack (PostgreSQL, Express.js, React, Node.js), improving operational efficiency and team workflow
- Implemented RESTful APIs and optimized database queries, resulting in improved application performance and reduced load times by 35%
- Collaborated with cross-functional teams to gather requirements, design features, and deploy solutions to production environment

Freelance Web Developer

July 2025 - November 2025 | Remote

- Designed and developed responsive landing pages for Glam and Adtalk using React, resulting in improved user engagement and brand presence
- Implemented pixel-perfect UI designs with focus on user experience, mobile responsiveness, and accessibility standards
- Optimized website performance and SEO, improving page load times and search engine rankings for client websites

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, PHP, SQL, HTML5, CSS3

Frontend: React, Next.js, Tailwind CSS

Backend: Node.js, Express.js, Flask, Django, RESTful APIs, Authentication and Authorization

Databases: PostgreSQL, MySQL, MongoDB, SQLite, Supabase, Firebase

Tools and Platforms: Git, GitHub, Docker, Postman, VS Code, Vercel

ML and Data Science: Python, TensorFlow, scikit-learn, OpenCV, pandas, NumPy, matplotlib

AI Workflows: Prompt engineering, research, documentation (Gemini); Code assistance, quality improvement (Claude)

FEATURED PROJECTS

Flippr - AI-Powered Flashcard Study App | github.com/berired/flippr-flashcards

- Built a flashcard study app that automatically generates cards from uploaded PDFs using AI, scheduling reviews based on recall performance so users study smarter, not longer
- Integrated Groq and Gemini AI for intelligent flashcard generation from PDF content, paired with the FSRS spaced repetition algorithm to optimize review intervals per card
- Built with Next.js, React, TypeScript, Tailwind CSS, Radix UI, and Framer Motion for a polished, accessible UI; Supabase for database and authentication; Zustand for state management

StudyTerm - Pomodoro Timer | github.com/berired/StudyTerm

- Developed a full-featured productivity timer application with integrated calendar, task management, activity heatmap, and real-time Spotify integration for study sessions
- Implemented Canvas integration to help students seamlessly track assignments and deadlines from their learning management system

- Built with Next.js, TypeScript, Tailwind CSS, and Supabase for scalable database and real-time authentication; achieved 95+ Lighthouse performance score

DormieTorium - Student Housing and Roommate Finder | github.com/berired/CIIT-Dorm-Finder

- Architected and built a comprehensive web application connecting CIIT students for dormitory and roommate matching with advanced filtering capabilities
- Designed scalable backend using Node.js and Express.js with RESTful APIs; implemented Firebase authentication and real-time database for user profiles and listings
- Developed responsive frontend with React, featuring interactive maps, search filters, and real-time messaging capabilities

GitHub Repository Notification Bot for Discord | github.com/berired/discord-repo-notifier

- Created an intelligent Discord bot that monitors GitHub repositories and sends real-time notifications to team members when code changes are pushed, enabling better team collaboration
- Implemented event-driven architecture using Discord.py library with GitHub webhook integration for instant updates

EDUCATION

Bachelor of Science in Computer Science

CIIT - College of Innovation and Integrated Technology | 2023 - Present | Quezon City, Philippines

STEM Track

Diliman Preparatory School | 2021 - 2023 | Quezon City, Philippines

AWARDS

- CIIT Hackathon - Best User Experience Award | January 30 - February 1

LEADERSHIP AND ACTIVITIES

Chief-of-Staff | CIIT Student Council | 2025 - Present

Led strategic initiatives and coordinated inter-council communication for student-led projects

Assistant Tech and Production Manager | CIIT Gaming Community | 2025 - Present

Overseeing technical infrastructure and event management for community gaming initiatives

Tech Representative | CIIT Student Council | 2024 - 2025

Represented technical courses and managed council technology infrastructure

Tech and Production Manager | CIIT Gaming Community | 2024 - 2025

Managed technical systems and coordinated event production for community activities

Tech Department | CIIT Tunes | 2023 - 2024

Provided technical support and infrastructure management for media initiatives

CERTIFICATIONS AND PROFESSIONAL DEVELOPMENT

- "Tech Horizons: AI and Cloud Computing" - CIIT College of Arts and Technology | November 2023
